Santa Fe Springs, Calif. – January 21, 2014 – Agri-Turf Distributing, LLC announced today that it is open for business and ready to supply professional pest, turf and ornamental, and vegetation management professionals in Southern and Central California.

Rich Records is the president of the newly formed Agri-Turf Distributing, LLC and a 35-year veteran in the California specialty market. He is joined by former colleagues, Chuck Synold, Donna Browne, and Tom Boyd. Synold serves as regional manager for the Central Valley. Browne and Boyd manage sales territories in the southern California region. Each manager has over 30 years of experience in the specialty markets.

“When we were presented with the opportunity of starting a new company two things came to mind – first, this is a tremendous opportunity, and second, this is going to be a tremendous amount of work. We were correct on both accounts,” said Records. “What we did not anticipate at that time is the overwhelming amount of support that we have received from the industry – suppliers and customers alike, – as well as the business community. We are grateful to the many people that have supported us.”

Agri-Turf Distributing's main distribution center is located in Santa Fe Springs, California, just off the 605 and 5 Freeways at 10551 Hathaway Drive near the historic Heritage Park. A second office and warehouse is located in Fresno, California.

For more information on products, services and delivery schedules, please contact the main office in Santa Fe Springs, California at (866) 314-0812 or visit the company website at www.agriturfdistributing.com.
