NEW: BELL SENSING TECHNOLOGIES™

TAKE THE GUESSWORK OUT OF YOUR SERVICE

Once IQ™ products are activated, rodent activity will appear on the App when technician arrives at an account and is in range of a device.

The Express®, T-Rex® & 24/7® are now available in an iQ™ variant that will seamlessly sync with the Bell Sensing Technologies smart phone app & portal.

USER BENEFITS

- From a distance, PMP's will be able to get information from IQ™ equipped devices and will immediately know which ones have had activity and which areas are the hot spots of the account.
- Instantly knowing the number of events will provide a PMP with real information that will allow rodent control measures to be deployed where they will matter most.
